Summary

I'm a Backend Engineer currently based in Nigeria with a 4+ years of total experience and 2+ year of professional experience in ideating, designing, building and delivering end to end solutions for digital products.

Experience

Backend Engineer
Destreetboard
Feb 2020 - Present (2 years 4 months +)
Integrating and building of server-side web application logics, services and APIs used by frontend and mobile application developers.

Web Development Lead
Google Developer Student Clubs
Jun 2019 - Nov 2019 (6 months)
As the web development lead, I helped to facilitate and organise classes/seminars for web development enthusiasts in the school community.

Backend Engineer (Intern)
Genesys Tech Hub
Feb 2019 - Aug 2019 (7 months)
As a backend intern developer, I built server-side applications with NodeJS/Express and deployed live applications with MongoDB databases on heroku.
